Ramaiah Institute of Technology

Bachelor of Engineering in Electronics and Communication

Bengaluru, IN

2019 – 2023

Expert PU College

Pre University

Mangaluru, IN

2017 – 2019

PROJECTS

naminggenie.com | *Nextjs, React, Nodejs, Prisma, Supabase*

www.naminggenie.com

- Developed a full-stack web application that generates available domain names based on business descriptions using a large language model
- Evolved the project from a simple HTML/CSS/JavaScript site to a comprehensive Next.js application with React and TailwindCSS
- Implemented a custom blogging system and focused on SEO optimization, resulting in increased impressions
- Integrated with Namecheap's affiliate program, earning 20% commission per order
- Utilized Prisma for database management and Zustand for state management

Kineticx | *Nextjs, React, Remotion, Zustand, Vercel*

kineticx.vercel.app

- Developed a web application that generates typography videos from descriptions in seconds, ideal for marketing and content creation
- Utilized Remotion to programmatically create dynamic videos using React components
- Implemented advanced features like frame-specific text editing and color scheme selection using Zustand for global state management
- Built with Next.js for server-side rendering and deployed on Vercel for seamless integration and automatic deployments

VarshaAgro | *Nextjs, React, Prisma, Supabase*

varshaagro.vercel.app

- Built a website to help conduct giveaways in our family-run shop and increase traffic to the shop's WhatsApp group and Facebook group
- Designed the website to cater to local Karnataka farmers, keeping the interface simple and intuitive
- Chose Supabase Postgres instance as the database provider to store the names and phone numbers of farmers, offering easy data access through a UI
- Implemented Prisma for database interactions due to its easy learning curve and compatibility with Next.js

EXPERIENCE

Co-founder

Zlock Technologies Limited

2023 – Present

Bengaluru

- Developed a full-stack web application using Nextjs, React, PostgreSQL(Prisma), and Vercel
- Built scalable, user-friendly applications to solve real-world challenges
- Implemented SEO strategies, boosting organic traffic
